Heavy duty log grate and rugged forged andirons

FEATURED Grand Meridian with Vintage Red Split Herringbone Mosaic Masonry™ Brick

The Grand Meridian fireplace offers a traditional design with a true masonry-built appearance. Its revolutionary design combines today's technology with the desirable look of a masonry fireplace. Lightweight modular concrete panels offer endless possibilities for making your living area warm and inviting. This custom site-built fireplace can be configured as either wood burning or vent-free gas and is certified for indoor or outdoor use.

EXCLUSIVE FEATURES

- ◆ Available in 33", 39", 44", 49", 63" models, as well as a 43" See Through model
- ◆ Approved for indoor or outdoor use
- ◆ Expansive tall opening up to 41" in all models with additional height kit
- ◆ Massive smoke dome with no visible smoke shelf for reliable operation
- ◆ Lightweight concrete construction for maximum thermal efficiencies
- ◆ Flush hearth floor design (structural metal base kit required for combustibile floor installations)
- ◆ Hand-laid Mosaic Masonry™ firebrick or vintage red ceramic brick in stacked or herringbone patterns
- ◆ Heavy duty cast iron log grate with rugged forged andirons
- ◆ Easy access damper control included with anchor plate kit
- ◆ Optional mesh fire screens available
- ◆ Outside air kit available for maximum performance
- ◆ Wood burning models use IHP 14" masonry chimney system or 12 DM (1700°) double wall air cooled wood burning chimney
- ◆ IHP 12 HT (2100°) heavy gauge double wall air cooled wood burning chimney, recommended for cold climates (required for Canada)
- ◆ 20 Year Limited Warranty

MODULAR MASONRY FIREPLACE SYSTEMS

Today's most discriminating homeowners will settle for nothing less than a real masonry fireplace. They will soon find that the level of craftsmanship to properly build a site-built fireplace is extremely expensive, and has all but disappeared. Due to their weight and method of construction, masonry fireplaces are also very limited in where they can actually be built. The solution to this dilemma is the new Grand Meridian from Astria™.

The Grand Meridian is a true, 100% masonry fireplace, but with half the weight and half the cost of traditional masonry fireplaces. This modular masonry system can be easily added to your master bedroom, upstairs retreat or even your outdoor patio without any special engineering or major building reinforcement. The Grand Meridian allows you to realize your dream of a masonry fireplace in your favorite area and give you years of treasured memories.

IMPORTANT NOTES:

As with any fireplace, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation, wind, vent configuration and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, climate, condition and type of fuel used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale—consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.

Approved for use with European Copper and Chimney Classics chimney tops, which improve performance and add an elegant touch.
